Mismanagement and corruption, however, almost led to its bankruptcy in 1975. It is the second-largest crude oil producer in Indonesia after Chevron Pacific Indonesia (which is the wholly owned subsidiary of America's Chevron, one of the world's leading integrated energy companies). For its upstream activities (both national and international) Pertamina conducts its own operations or engages in partnerships in the form of joint operations with Joint Operating Bodies (JOB), Joint Operating Contracts (JOC) and Technical Assistance Contracts (TAC). Pertamina is Indonesia's largest state-owned enterprise (SOE) in terms of revenue and income. Pertamina is a state-owned enterprise that is fully owned by the Indonesian government and thus does not trade shares on the Indonesia stock exchange (IDX). Besides the exploration, production and transmission of oil and gas, Pertamina is also increasingly tapping Indonesia's coalbed methane and geothermal potential. The company seeks to acquire exploration rights for new overseas oil blocks in the Middle East, Thailand, Burma and Vietnam (it already has blocks in Sudan, Qatar, Iraq, Malaysia, Australia and Libya) as well as to ramp up production of its domestic oil blocks by using more advanced technology and by acquiring new or existing blocks. blocks.
